PRODUCT OVERVIEW

Application

The EDP Computer Crash Cart provides a mobile computing platform that can be used in a host of locations from Data Centres, computer rooms and offices to factories, hospitals and stores.

It's flexible design accommodates seated or standing operators and can be easily wheeled to the required location.

Features

- A lightweight mobile computer crash cart that can be used almost anywhere.
- Height adjustable and can accommodate both seated and standing users.
- Tilting keyboard arm with mouse tray that can be attached to either the left or right hand side.
- Safety belt can be adjusted for different sizes of CPU.
- Supports CPUs up to 20Kg.
- Made from an aluminium alloy which has a neat and artistic appearance.
- Has a 75/100 VESA mounting plate that will support monitors up to 6Kg.
- Pivots 10° upwards and 25° downwards.
- Five wheels of which three are lockable.
- Height 180cm (71").

Computer equipment shown is for illustration only and is not included, but can be purchased separately.
