RackSEAL Floor

RACKSEAL FLOOR
AIR BARRIER FOR FLOORS
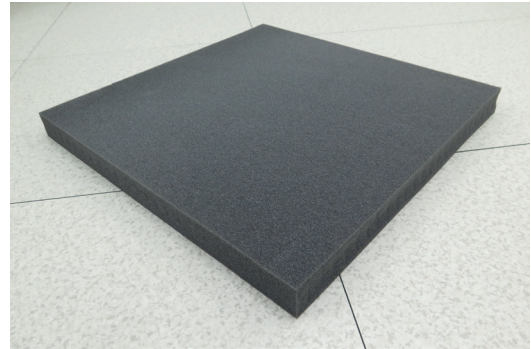

edp
Distribution

PRODUCT OVERVIEW

Application

RackSEAL Floor is the latest addition to EDP Europe's RackSEAL Air Barrier solutions, which help to enable improvements to Data Centre cooling efficiency.

RackSEAL Floor provides a quick, easy and cost effective solution for sealing a variety of openings in Data Centre raised floors, and other areas as well.

Supplied in 600mm x 600mm sheets that have 25mm x 25mm perforations, RackSEAL Floor can be easily adjusted to the required size regardless of any obstacles that are in the way, for example cable bundles, pipe work etc.

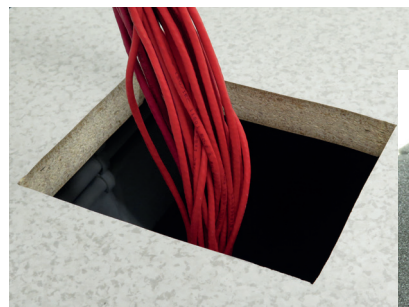

Specifications

Part Number:	49-EDP-24
