

Server Lifts

Standard GL™ Lift with Platform

Counterweight GL™ Lift with Platform

The Genie® GL™ Server Lift range consists of standard or counterweight models designed to make the movement and handling of IT equipment easier.

Standard Base

The Standard Base Genie® GL™ Server Lift has a compact design and low loading height that allows you to lift and manoeuvre in tight spaces. Available in GL-4 and GL-8 models.

Counterweight Base

The Counterweight Base Genie® GL™ Server Lift has a short leg length that enables you to work closer to the carried load. Available in GL-4, GL-8 and GL-10 models.

Features & Benefits

- Portable and compact design.
- Lightweight durable, telescoping aluminium construction.
- Removing platform exposes durable steel forks that provides extra versatility for lift.
- Standard lift has 20cm non-marking rear wheels and 5cm dual wheel front swivel castors.
- Counterweight lift has 12.7cm rear swivel castors with side brakes and 10cm fixed front wheels.
- Loads are lifted or lowered using standard winch.

Models

GL™-4

- 1.30m Maximum lift height.
- Up to 227Kg load capacity.

GL™-8

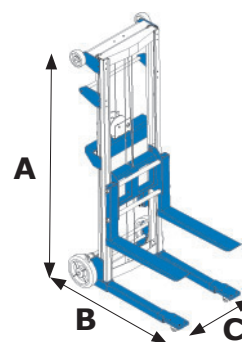

- 2.5m Maximum lift height.
- Up to 181Kg load capacity.

GL™-10

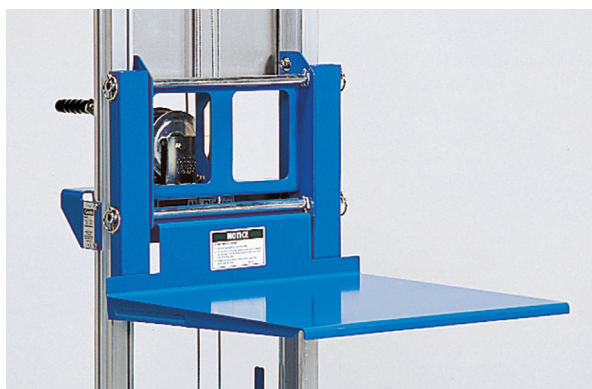

- 3.01m Maximum lift height.
- Up to 159Kg load capacity.
