

SwitchAir Product Range

Passive Network Switch Cooling Models

83-SA1-01001NB

- Passive 1U SwitchAir for switches with air intake on both sides. Includes New Build Channels for mounting switch.
- Suitable for Cisco 4948 Series 1U switches.
- Chassis Depth: 7" (178mm).
- Channel Length: 27.625" (702mm).

83-SA1-01001SS

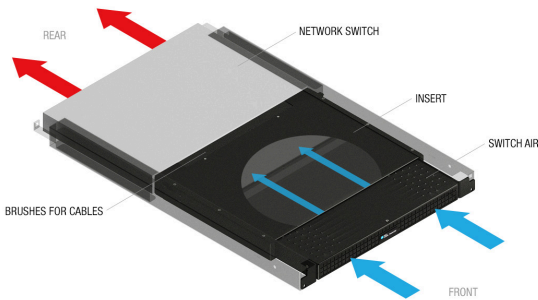

- Passive 1U SwitchAir for switches with air intake on one side. Includes New Build Channels for mounting switch.
- Chassis Depth: 7" (178mm).
- Channel Length: 27.625" (702mm).

83-SA1-01002 / 83-SA1-01002L / 83-SA1-01002S

- Passive 1U SwitchAir for switches with rear air intake (non-port side).
- Chassis Depth: 7.63" to 11.63" (194mm to 295mm).
- Chassis 'L' Depth: 10.63" to 14.63" (270mm to 372mm).
- Chassis 'S' Depth: 5.75" to 8.5" (146mm to 216mm).

83-SA1-01002XLNB

- Extra long 1U SwitchAir for rear air intake to front (Port) exhaust switches. Includes New Build Channels.
- Chassis Depth: 12.75" to 21" (324mm to 533mm).

83-SA1-01003LNB

- 1U SwitchAir for rear rack mounted 1U switches with rear air intake and front (port) exhaust. Includes New Build Channels for mounting switch.
- Depth Range: 10" - 14.63" (254mm to 372mm).

83-SA1-02003 / 83-SA1-02003L / 83-SA1-02003S / 83-SA1-02003XS

- Passive 2U SwitchAir for 2U switches or 2 x 1U switches with rear air intake (non-port side).
- Chassis Depth: 7.63" to 11.63" (194mm to 295mm).
- Chassis 'L' Depth: 10.63" to 14.63" (270mm to 372mm).
- Chassis 'S' Depth: 5.75" to 8.5" (146mm to 216mm).
- Chassis 'XS' Depth: 4.15" to 5.75" (105mm to 146mm).

83-SA1-02005

- Passive 2U SwitchAir for rear rack mounted 2U switches with single side air intake.

83-SA1-03001

- Passive 3U SwitchAir for three rear rack mounted 1U switches with side air intakes both sides.

83-SA1-09001

- Passive 9U SwitchAir for re-directing exhaust from the side of core switches.
- Air deflector for Cisco 6509 (15U) and Nexus 7018 (25U) switches.
- Exhaust only.
- For use in two or four post open frames.
